MANAGEMENT'S DISCUSSION AND ANALYSIS

NON-IFRS MEASURES

The cash cost of production is a measure that is not in accordance with IFRS.

The Company has included cash production cost per ounce gold data to supplement its consolidated financial statements, which are presented in accordance with IFRS. Non-IFRS measures do not have any standardized meaning prescribed under IFRS, and therefore they may not be comparable to similar measures employed by other companies. The data is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance, operating results or financial condition prepared in accordance with IFRS. The Company has included cash production cost per ounce data because it understands that certain investors use this information to determine the Company's ability to generate earnings and cash flow. The measure is not necessarily indicative of operating results, cash flow from operations, or financial condition as determined under IFRS. Cash production costs are determined in accordance with the Gold Institute's Production Cost Standard. Although the Gold Institute ceased operations in 2002, the Company believes that the Gold Institute's Production Cost Standard continues to represent the market accepted standard for reporting cash cost of production. However, different issuers may apply slight deviations to the standard so the cash production costs disclosed by the Company may not be directly comparable to other issuers.

The following tables provide a reconciliation of cost of sales to the cash costs of production in total dollars and in dollars per gold ounce for the CSH Mine or per copper pound for the Jiama Mine:

MINERAL PROPERTIES

The CSH Mine

The CSH Mine is located in Inner Mongolia Autonomous Region of China (Inner Mongolia). The property hosts two low-grade, near surface gold deposits, along with other mineralized prospects. The main deposit is called the Northeast Zone (the "Northeast Zone"), while the second, smaller deposit is called the Southwest Zone (the "Southwest Zone").

The CSH Mine is owned and operated by Inner Mongolia Pacific Mining Co. Limited, a Chinese Joint Venture in which the Company holds a 96.5% interest and Ningxia Nuclear Industry Geological Exploration Institution holds the remaining 3.5%.

The CSH Mine has two open-pit mining operations with a combined mining and processing capacity of 60,000 tpd. The run-of-mine ore is heap leached with cyanide solution to extract gold and electro-winned to produce a gold dore which is sold to refiners.

Exploration

At the beginning of 2020, an exploration program for the south-west pit depth was projected, with six surface diamond drill holes totaling 3,300 +/-m to identify and upgrade additional deep Mineral Resources, which may extend the life of mine. Three surface drill holes are underway, given 1,125 +/-m completed accounting for 31% of the annual projection.

In addition, the geological exploration research project initiated in 2019 is continued to proceed with interpretation of geophysical and geochemical surveys, establishment of 3D-quantitative geological model, and selection of targets for further exploration.

The Jiama Mine

The Company acquired the Jiama Mine on December 1, 2010. Jiama is a large copper-gold polymetallic deposit containing copper, gold, silver, molybdenum, lead, zinc and other metals located in the Gandise metallogenic belt in Tibet Autonomous Region of China.

The Jiama Mine has both underground mining and open-pit mining operations. Phase I of the Jiama Mine commenced mining operations in the latter half of 2010 and reached its design capacity of 6,000 tpd in early 2011. Phase II of the Jiama Mine commenced mining operations in 2018 with 44,000 tpd design capacity.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In 2019, Tibet Huatailong Mining Development Co. Ltd. (“Huatailong”), the company holds the Jiama mine, entered into a cooperation agreement (the “Cooperation Agreement”) with an independent third party property developer, Zhongxinfang Tibet Construction Investment Co., Ltd. (“Zhongxinfang”) in relation to the development of a composite project in Lhasa, Tibet, China. Pursuant to the Cooperation Agreement, the Huatailong agreed to transfer the land use right for the development and the Zhongxinfang agreed to compensate the Huatailong by transferring a block of the buildings and twenty car parks within two years from the date of the Cooperation Agreement and all related tax exposures including but not limited to land appreciation tax, enterprises income tax and other related tax. The land use right was transferred to the Zhongxinfang in 2019.

During the second quarter of 2020, there was a construction contract dispute between independent third parties, the constructor, Huaxin Construction Group Co., Ltd. (formerly named as “Nantong Huaxin Construction Group Co., Ltd.”) (“Huaxin”) and the developer, Zhongxinfang Tibet Construction Investment Co., Ltd. (“Zhongxinfang”), and the Group's subsidiary, Huatailong, who are the signatories of the construction contract for the property development project on the land previously owned by Huatailong. Such land was transferred to Zhongxinfang during 2019 pursuant to the cooperation agreement signed between Zhongxinfang and Huatailong in 2019 in relation to the Land Exchange. Huaxin proceeded a lawsuit against the parties to the construction contract, Zhongxinfang and Huatailong, for the recoverability of the construction costs of RMB149 million (equivalents to US\$21,196,000) and applied for pre-litigation preservation of assets from Huatailong. The Intermediate People's Court of Lhasa City, Tibet, adjudicated that the bank deposit of RMB140 million (equivalents to US\$19,775,000) of Huatailong to be frozen for one year (the “1st Adjudication”). Accordingly, the frozen bank deposit of US\$19,775,000 was included in restricted bank balances as at June 30, 2020.

Based on the first instance adjudication dated on August 5, 2020 (the “First Instance Adjudication”), the litigation ruling adjudicated that Zhongxinfang and Huatailong shall have the jointly obligation for the construction costs of RMB140 million (equivalents to US\$19,954,000) to Huaxin. Pursuant to the cooperation agreement signed between Zhongxinfang and Huatailong in 2019, Huatailong does not involve in the construction process which and the related costs are the sole responsibilities of Zhongxinfang. Based on the legal opinion, Huatailong will proceed an appeal against the First Instance Adjudication, the lawsuit is currently under proceeding and the results is not ascertain as at the date of issuance of these condensed consolidated financial statements. The directors of the Company have been closing monitoring the proceedings in relation to the First Instance Adjudication.

Regarding the 1st Adjudication, Huatailong applied for pre-litigation preservation of assets from Zhongxinfang, the Intermediate People's Court of Lhasa City, Tibet, adjudicated that the value of properties limited to RMB151 million (equivalents to US\$21,473,000) from Zhongxinfang was frozen for one year.

Huatailong has paid the tax and other surcharges related to the Land Exchange during the six months ended June 30, 2020 and expects to recover such payments from Zhongxinfang in accordance with the cooperation agreement between Huatailong and Zhongxinfang signed in 2019. On July 8, 2020, Huatailong applied for pre-litigation preservation of assets from Zhongxinfang, the Intermediate People's Court of Lhasa City, Tibet, adjudicated that the value of properties limited to RMB46 million (equivalents to US\$6,571,000) from Zhongxinfang was frozen for one year. In the opinion of the directors of the Company, no significant expected credit loss is recognised on other receivables based on the credit risk assessment.

Exploration

In the second quarter of 2020, the Company continued diamond drilling program, focusing on the well mineralized zones based on the drilling program in 2019. Six surface drill holes are underway, totaling 1,060 +/-m of drilling completed. The mineralization interceptions and sample assaying of 2020 drilling will be analyzed together with 2019 exploration results to upgrade Mineral and a positive result is expected.

Mineral Resources Estimate

An NI 43-101 compliant mineral resource estimate was independently completed by Mining One Pty Ltd. in November 2013. The drilling programs subsequent to November 2012, including an extensive drill program conducted in 2013, will be included in future updates of the Mineral Resources and Reserves.

Mining One Pty Ltd. noted that gold and silver mineralization within the ore body had a significantly higher spatial variability than the other elements. This classification takes into account the proposed large scale mining techniques where Au and Ag will only be credits to the overall products from the operations. Mining One Pty Ltd has assumed that Au and Ag will not be assigned a single cut-off grade for a selected mining block and will be mined in conjunction with the other elements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

LIQUIDITY AND CAPITAL RESOURCES

The Company operates in a capital intensive industry. The Company's liquidity requirements arise principally from the need for financing its mining and mineral processing operations, exploration activities and acquisition of exploration and mining rights. The Company's principal sources of funds have been proceeds from borrowing from commercial banks in China, corporate bond financing, equity financings, and cash generated from operations. The Company's liquidity primarily depends on its ability to generate cash flow from its operations and to obtain external financing to meet its debt obligations as they become due, as well as the Company's future operating and capital expenditure requirements.

At June 30, 2020, the Company had an accumulated surplus of US\$206.3 million, working capital of US\$175.2 million and borrowings of US\$1,759 million. The Company's cash balance at June 30, 2020 was US\$723.2 million.

Management believes that its forecast operating cash flows are sufficient to cover the next twelve months of the Company's operations including its planned capital expenditures and current debt repayments. The Company's borrowings are comprised of US\$507.6 million of 3.25% coupon rate unsecured bonds maturing on July 6, 2020, which are included in the current portion of borrowings, US\$295.9 million of 2.8% coupon rate unsecured bonds maturing on June 23, 2023, and US\$99.9 million of short term debt facilities with interest rates ranging from 2.65% to 4.51% per annum arranged through various banks in China. In addition, on November 3, 2015, the Company entered into a Loan Facility agreement with a syndicate of banks, led by Bank of China. The lenders agreed to lend an aggregate principle amount of RMB3.98 billion, approximately US\$613 million with the interest rate of 2.83% per annum. The People's Bank of China Lhasa Center Branch's interest rate serves as a local benchmark for the interest on the drawdowns. The bank's interest rate is then discounted by 7 basis points (or 0.07%) to calculate the interest on the drawdowns. The loan interest rate was adjusted from benchmark interest rate minus 7 basis points to 5 year loan prime rate ("LPR") less 2% (LPR-2%) in second quarter of 2020. The interest rate of 2.65% shall be applied for the current year after converting. The proceeds from the Loan Facility are to be used for the development of the Jiama Mine. The loan is secured by the mining rights for the Jiama Mine. As of June 30, 2020 the Company has drawn down RMB3.640 billion, approximately US\$505.7 million under the Loan Facility. On April 29, 2020, the Company entered into a Loan Facility agreement with a syndicate of banks. The lenders agreed to lend an aggregate principle amount of RMB1.4 billion, approximately US\$197.8 million with the interest rate of 2.65% per annum currently, maturing on April 28, 2034. The Company obtained a loan in the aggregate principal amount of RMB400 million with China Development Bank bearing interest at the People's Bank of China Loan Market Quote Rate (1 year) minus 2.65% on April 30, 2020. The current interest rate of the loan is 1.2% per annum. On July 6, 2020, the Company repaid the unsecured bonds with an aggregate principal amount of US\$500 million and interest expense of US\$8.125 million. The Company believes that the availability of debt financing in China at favorable rates will continue for the foreseeable future.

The Company continues to review and assess its assets for impairment as part of its financial reporting processes. To date, the assessment carried out by the Company support the carrying values of the Company's assets and no impairment has been required. However, the management of the Company continues to evaluate key assumptions on estimates and management judgements in order to determine the recoverable amount of the CSH Mine and the Jiama Mine.

16. CONTINGENCIES

During the second quarter of 2020, there was a construction contract dispute between independent third parties, the constructor, Huaxin Construction Group Co., Ltd. (formerly named as “Nantong Huaxin Construction Group Co., Ltd.”) (“Huaxin”) and the developer, Zhongxinfang Tibet Construction Investment Co., Ltd. (“Zhongxinfang”), and the Group’s subsidiary, Huatailong, who are the signatories of the construction contract for the property development project on the land previously owned by Huatailong. Such land was transferred to Zhongxinfang during 2019 pursuant to the cooperation agreement signed between Zhongxinfang and Huatailong in 2019 in relation to the Land Exchange. Huaxin proceeded a lawsuit against the parties to the construction contract, Zhongxinfang and Huatailong, for the recoverability of the construction costs of RMB149 million (equivalents to US\$21,196,000) and applied for pre-litigation preservation of assets from Huatailong. The Intermediate People’s Court of Lhasa City, Tibet, adjudicated that the bank deposit of RMB140 million (equivalents to US\$19,775,000) of Huatailong to be frozen for one year (the “1st Adjudication”). Accordingly, the frozen bank deposit of US\$19,775,000 was included in restricted bank balance as at June 30, 2020.
