## MANAGEMENT'S DISCUSSION AND ANALYSIS

### *Six months ended June 30, 2023*

- Revenue decreased by 45% to US\$325.8 million from US\$596.0 million for the same period in 2022.
- Mine operating earnings decreased by 57% to US\$96.6 million from US\$223.2 million for the same period in 2022.

- Total copper production decreased by 54% to 44.1 million pounds (approximately 20,019 tonnes) from 95.4 million pounds (approximately 43,279 tonnes) for the same period in 2022.

The decrease in production and profit was mainly attributed to the suspension of operations of the Jiama Mine as of March 27, 2023 due to the overflow at the Guolanggou tailings pond. As a result of the suspension, the Company did not record any product sales from the Jiama Mine during Q2 2023, with the exception of a minor amount of molybdenum.

### **Outlook**

On March 27, 2023, an overflow occurred at the Guolanggou Tailings Dam at Jiama Mine (the “overflow”). The Company quickly contained and repaired the breach to ensure no damage to the environment or neighbouring communities. Subsequent to the overflow, Jiama Mine has suspended its operations while the Company takes the opportunity to conduct a comprehensive safety assessment of and repair work on its tailings dam with the assistance and supervision of government safety authorities. The Company does not have an exact timeline for the re-start of production.

The overflow occurred at the top 19th subsequent dyke of the Guolanggou Tailings Dam. However, other levels of subsequent dykes and the starter dyke were also damaged to varying degrees. The Company is conducting a comprehensive inspection and assessment of all 19 levels of subsequent dykes and the starter dyke of the tailings dam and is making permanent repairs and reinforcements of the dam. As at the date of this MD&A, the overall progress is on schedule. The dam's repair and major reinforcement works have been completed and some reinforcement works are still in the final stage. The Company is working towards submitting a safety assessment report to the regulatory authority on or around the end of August 2023. The Company is adopting various active measures to promote the resumption of production of the Jiama Mine.

Due to the uncertainty of the date of resumption of production at Jiama Mine, the Company has withdrawn its annual production guidance for 2023 as set out in the announcement of the Company dated January 20, 2023. Once the impact of the overflow on the operation can be more clearly evaluated, the Company will re-issue the production guidelines. However, the Company notes that production operations at the Company's CSH gold mine remain normal and stable.

Gold production at the CSH Mine decreased by 7% to 36,069 ounces for the three months ended June 30, 2023 compared to 38,607 ounces for the same period in 2022 due to lower grades of ore. The total production cost of gold for the three months ended June 30, 2023 decreased by 6% to US\$1,354 per ounce compared to US\$1,442 for the same period in 2022. The decrease in total production cost was due to a decrease in depreciation and amortization as compared to Q2 2023. The cash production cost of gold for the three months ended June 30, 2023 increased by 14% to US\$913 per ounce from US\$798 for the same period in 2022. The increase in cash production cost is mainly due to higher stripping ratio and waste ore mined in order to ensure the stability of the open pit slope in Q2 2023.

**Research and development expenses** of US\$6.1 million for the six months ended June 30, 2023, decreased from US\$11.4 million for the comparative 2022 period, mainly due to the suspension of operations at the Jiama Mine.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

**Income from operations** of US\$72.9 million for the six months ended June 30, 2023, decreased by US\$120.4 million, compared to US\$193.3 million for the same period in 2022.

**Finance costs** of US\$13.6 million for the six months ended June 30, 2023, decreased by US\$2.5 million compared to US\$16.1 million for the same period in 2022. The decrease was primarily due to the reduction in the total amount of borrowings outstanding.

**Foreign exchange loss** of US\$8.4 million for the six months ended June 30, 2023, decreased from US\$9.9 million for the same period in 2022. The loss was attributed to changes in the RMB/USD exchange rates and the revaluation of monetary items held in Chinese RMB.

**Interest and other income** of US\$5.9 million for the six months ended June 30, 2023, decreased from US\$6.7 million for the same period in 2022, mainly due to the less dividends received from China Nonferrous Mining Corporation Limited in the second quarter of 2023 compared to last year.

**Other expense** of US\$22.6 million was recognized in Q2 2023. In the current quarter, the Company recognized estimated litigation compensation of US\$22.6 million arising from the litigation between Huaxin Construction Group Co., Ltd., Zhongxinfang, and the Company's subsidiary, Tibet Huatailong Mining Development Co. Ltd. Refer to Note 17 Contingencies of the condensed consolidated financial statements for details.

**Income tax expense** of US\$8.9 million for the six months ended June 30, 2023, decreased by US\$11.6 million from US\$20.5 million for the comparative period in 2022. During the period, the Company had US\$17.8 million of deferred tax credit compared to US\$8.6 million for the same period in 2022.

**Net income** of US\$25.3 million for the six months ended June 30, 2023, decreased by US\$128.2 million from US\$153.5 million for the six months ended June 30, 2022.

### NON-IFRS MEASURES

The cash cost of production, cash cost after by-product credits and cash cost per ounce and per pound are measures that are not in accordance with IFRS.

The Company has included these metrics to supplement its consolidated financial statements, which are presented in accordance with IFRS. Non-IFRS measures do not have any standardized meaning prescribed under IFRS, and therefore they may not be comparable to similar measures employed by other companies. The data is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance, operating results or financial condition prepared in accordance with IFRS. The Company has included cash production cost per ounce and per pound data because it understands that certain investors use this information to determine the Company's ability to generate earnings and cash flow. The measures are not necessarily indicative of operating results, cash flow from operations, or financial condition as determined under IFRS.

The following tables provide a reconciliation of cost of sales to the cash costs of production in total dollars and in dollars per gold ounce for the CSH Mine or per copper pound for the Jiama Mine:

Cash production cost for gold is calculated as total cost of sales adjusted by depreciation and depletion and amortization of intangible assets. Cash production cost of gold per ounce is calculated as total cash production cost divided by total gold sold (ounces).

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### MINERAL PROPERTIES

#### The CSH Mine

The CSH Mine is located in Inner Mongolia Autonomous Region of China (Inner Mongolia). The property hosts two low-grade, near surface gold deposits, along with other mineralized prospects. The main deposit is called the Northeast Zone (the "Northeast Zone"), while the second, smaller deposit is called the Southwest Zone (the "Southwest Zone").

The CSH Mine is owned and operated by Inner Mongolia Pacific Mining Co. Limited, a Chinese Joint Venture in which the Company holds a 96.5% interest and Ningxia Nuclear Industry Geological Exploration Institution holds the remaining 3.5%.

The CSH Mine is an open-pit mining operations with a designed mining and processing capacity of 60,000 tpd. In July 2019, CSH updated its mine plan based on a result of latest ultimate limit optimization, in which the production rate was reduced to 40,000 t/d with a life of mine ("LoM") of seven years as of 2019. The run-of-mine ore is heap leached with cyanide solution to extract gold and electro-wonned to produce a gold dore which is sold to refiners. In June 2020, the operation of southwest pit ended.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### LIQUIDITY AND CAPITAL RESOURCES

The Company operates in a capital intensive industry. The Company's liquidity requirements arise principally from the need for financing its mining and mineral processing operations, exploration activities and acquisition of exploration and mining rights. The Company's principal sources of funds have been proceeds from borrowings from commercial banks, corporate bonds financing, equity financings, and cash generated from operations. The Company's liquidity primarily depends on its ability to generate cash flow from its operations and to obtain external financing to meet its debt obligations as they become due, as well as the Company's future operating and capital expenditure requirements.

At June 30, 2023, the Company had an accumulated surplus of US\$451.5 million, working capital of US\$211.1 million and borrowings of US\$722.0 million. The Company's cash balance at June 30, 2023 was US\$139.5 million.

Management believes that its forecast operating cash flows are sufficient to cover the next twelve months of the Company's operations including its planned capital expenditures and current debt repayments. The Company's borrowings are comprised of US\$132.3 million of short term debt facilities with interest rates ranging from 1.05% to 6.30% per annum arranged through various banks overseas. In addition, on November 3, 2015, the Company entered into a Loan Facility agreement with a syndicate of banks, led by Bank of China. The lenders agreed to lend an aggregate principal amount of RMB3.98 billion, approximately US\$613 million with the interest rate of 2.83% per annum. The People's Bank of China Lhasa Center Branch's interest rate serves as a local benchmark for the interest on the drawdowns. The bank's interest rate is then discounted by 7 basis points (or 0.07%) to calculate the interest on the drawdowns. The loan interest rate was adjusted from benchmark interest rate minus 7 basis points to 5 year loan prime rate ("LPR") less 2% (LPR-2%) in second quarter of 2020. The interest rate of 2.45% shall be applied for the current year. The proceeds from the Loan Facility are to be used for the development of the Jiama Mine. The loan is secured by the mining rights for the Jiama Mine. As of June 30, 2023 the Company has drawn down RMB3.79 billion, approximately US\$564.7 million under the Loan Facility. On April 29, 2020, the Company entered into a Loan Facility agreement with a syndicate of banks. The Company together with its subsidiaries (collectively referred to as the “Group”) is principally engaged in the acquisition, exploration, development and mining of mineral resources in the People’s Republic of China (the “PRC”). The Group considers that China National Gold Group Co., Ltd. (“CNG”), a state owned company registered in Beijing, the PRC, which is controlled by State-owned Assets Supervision and Administration Commission of the State Council of the PRC, is able to exercise significant influence over the Company.

The head office, principal address and registered and records office of the Company are located at Suite 660, One Bentall Centre, 505 Burrard Street, Vancouver, British Columbia, Canada, V7X 1M4.

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange as well as International Accounting Standard 34 Interim Financial Reporting issued by the International Accounting Standards Board, which should read in conjunction with the consolidated financial statements for the year ended December 31, 2022.

On March 27, 2023, a tailings overflow occurred due to minor tailing dam damages from the Guolanggou tailings pond at the Group’s Jiama Copper-Gold Polymetallic Mine (“Jiama Mine”) (the “overflow”). In response to the overflow, the Group quickly contained and repaired the breach to ensure no damage to the environment or neighboring communities. Subsequent to the overflow, Jiama Mine has suspended its operations and the Group takes the opportunity to conduct a comprehensive safety assessment of and repair work on its tailings dam with the assistance and supervision of government safety authorities.

Up to the date these condensed consolidated financial statements are authorised for issue, the Group does not have an exact timeline for the re-start of production. However, the Group has conducted a comprehensive inspection and assessment of all 19 levels of subsequent dykes and the starter dyke of the tailings dam. The Group is adopting various active measures to promote the resumption of production of the Jiama Mine and the repair and major reinforcement construction have been completed and some reinforcement works are still in the final stage. Following the completion of the construction, the Group will conduct a safety assessment of the entire tailings pond and submit an assessment report to the regulatory authority by the end of August 2023. The government regulators will decide when to grant permission to resume production based on the assessment report.

*For The Three and Six Months Ended June 30, 2022 (unaudited)*

## **1. GENERAL AND BASIC OF PREPARATION AND SIGNIFICANT EVENT DURING THE CURRENT PERIOD (Cont'd)**

During the three months ended June 30, 2023, the Group recorded a net loss of US\$53 million and net operating cash outflows of US\$74 million although the Group recorded an accumulated profit of US\$25 million and net operating cash inflows of US\$54 million for the six months ended June 30, 2023 and the Group's current assets exceeded its current liabilities by approximately US\$211 million as at June 30, 2023. In view of overflow and aforementioned circumstances, the suspension of Jiama Mine's operation have had negative impact on the financial performance of the Group, generate less operating cash flow than normal operation and effects of litigations as detailed in Note 17, the directors of the Company have given careful consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. Taking into account the Group's cash flow projection with impact of Jiama Mine's suspension, the expected resumption of operations and effects of litigations as detailed in Note 17, including the Group's ability to obtain the new financing and the Group's future capital expenditure in respect of its non-cancellable capital commitments and the renewal of mining right of Jima Mine, the directors of the Company consider that the Group has sufficient working capital to meet in full its financial obligations as they fall due for at least next twelve months from the end of the reporting period and accordingly, the condensed consolidated financial statements have been prepared on a going concern basis.

During the six months ended June 30, 2023, as described in Note 17 to the condensed consolidated financial statements, the Group involved in several lawsuits and disputes with third parties for a construction contract dispute and breach of contract actions incidental to the normal course of business operations of the Group. As at June 30, 2023, provisions of US\$23 million are recognised in relation to a construction contract dispute which the Group has joint obligation for the construction costs. In addition, the Group is currently involved in litigation pending legal proceedings and no provisions are recognised in the condensed consolidated financial statements when, after assessing the information available, the Group concludes that it is not probable that a loss has been incurred in any of the pending litigation. Details of litigation involved are set out in Note 17.

### (i) Litigation with Huaxin and Zhongxinfang (Cont'd)

#### (a) *Litigations with Huaxin and Zhongxinfang for the construction costs*

During the year ended December 31, 2020, Huaxin proceeded a lawsuit against the parties to the construction contract, Zhongxinfang and Huatailong, for the recovery of the construction costs of RMB149 million (equivalent to US\$21,319,000) and applied for pre-litigation preservation of assets from Huatailong. The Intermediate People's Court of Lhasa City, Tibet ("Tibet Intermediate Court"), adjudicated that the bank deposit of RMB140 million (equivalent to US\$19,775,000) of Huatailong to be frozen for one year from April 10, 2020 (the "First Adjudication"). Based on the adjudication of Tibet Intermediate Court after the First Adjudication on December 1, 2020 and related notice of execution effective from December 3, 2020, the related frozen bank deposit of US\$19,775,000 of Huatailong was released.

Based on the first instance adjudication dated July 23, 2020 (the "First Instance Adjudication"), the litigation ruling adjudicated that Zhongxinfang and Huatailong shall have the joint obligation for the construction costs of RMB140 million (equivalent to US\$20,070,000) to Huaxin. Pursuant to the Cooperation Agreement, Huatailong is not responsible for the construction and the related construction works and costs are the sole responsibilities of Zhongxinfang. During the year ended December 31, 2022, Huaxin filed a petition with the Supreme People's Court of the PRC for a retrial and request re-adjudicating 2020 Final Instance Adjudication, the Supreme People's Court of the PRC has formed a collegial panel pursuant to law to review this case and ordered Tibet High Court to retry the case. Accordingly, Huatailong recognised RMB157 million (equivalent to US\$21,686,000) as payable for litigation compensation which is presented under "accounts and other payables and accrued expenses" as at June 30, 2023.

On July 24, 2023, Huaxin applied for an enforcement of the June 2023 Final Instance Adjudication (the "July 2023 Enforcement") and up to the date these condensed consolidated financial statements are authorised for issue, Huatailong has received the related enforcements notice which required Huatailong to declare its assets to Tibet Intermediate Court for assessment.
